

Installation, Inspection & Repair of the Avanti Ladder System

The Installation, Inspection & Repair of the Avanti Ladder System course educates the participants on how to safely conduct a correct installation and repair of the Avanti Ladder System. Furthermore, the participants will learn how to perform the 12 month competent inspection in accordance with the applicable occupational health and safety regulations.

Avanti E-Learning courses can be accessed anywhere at any time and can be used directly on computer, laptop or tablet. Learn at your own pace and obtain your certificate and authorization immediately upon successful completion.

With this new e-learning you will experience improved graphics, more user friendly interactivity and the inclusion of a Avanti virtual trainer guiding and instructing the participant through the e-learning with text-to-speech options.
